The Customer is responsible for the payment of bills associated with the use of VT's service whether or not authorized by the Customer. This includes payment for calls and services: (1) originated at the Customer's number(s), (2) accepted at the Customer's number(s) (e.g., collect calls) and/or (3) incurred at the specific request of the Customer.

The Customer is responsible for making VT facilities and equipment available periodically for maintenance purposes at a time agreeable to both VT and the Customer. No allowance for interruptions in service will be made for the period during which service is interrupted for such purpose.

The Customer is responsible for reimbursing VT for damages to, or loss of, VT's facilities or equipment caused by the acts or omissions of the Customer, the non-compliance by the Customer with these regulations or by fire or theft or other casualty on the Customer's premises, unless caused by the negligence or willful misconduct of the employees or agents of VT. 2.7 Customer Deposits

VT may require a deposit, or an increase in the amount of deposit, of a Customer who cannot establish a credit standing satisfactory to VT. If the actual bills of the Customer subsequently rendered prove that the deposit is either insufficient or excessive, the deposit may be changed in accordance with the facts.

Any such deposit may be held during the continuance of the service as security for the payment of any and all amounts accruing for the service.

A deposit is returned to the Customer, less any amounts due VT, when service is disconnected. If a residential Customer has paid all bills by the due date for the last twelve (12) months, VT must promptly refund the deposit. VT is not required to refund deposits on business or commercial accounts until the account is closed. Refunds may be made through a credit on the next billing cycle. Even though a deposit is made, the Customer must still pay bills, including any advance payments, when requested. A Customer's payment of a deposit does not waive or modify VT's practice of disconnecting service for failure to pay any bills.

2.0 RULES AND REGULATIONS (Continued)

2.8 Advance Payments

VT may require a Customer or applicant to make an advance payment as a condition of continued or new service. VT reserves the right to require from an applicant advance payments of recurring and non-recurring charges, estimated usage charges and other charges and guarantees in such amount as may be deemed necessary by VT for safeguarding its interests. In addition, where special construction is involved, advance payment of the construction charges quoted may be required at the time of application. The advance payment will be applied to any indebtedness for the service and facilities for which the advance payment is made.

2.17 Cancellation, Discontinuance and Changes

2.17.1 Cancellation of Application for Service

When a Customer cancels an application for service prior to the start of service or prior to any special construction, no charges will be imposed except for these specified herein.

Where, prior to cancellation by the Customer, VT incurs any expenses in installing the service that it otherwise would not have incurred, a charge equal to the costs VT incurred, less net salvage, shall apply, but in no case shall this charge exceed the sum of the charge for the minimum period of services ordered, including installation charges, and all charges others levied against VT that would have been chargeable to the Customer had service begun.

Where VT incurs an expense in connection with special construction, or where special arrangements of facilities or equipment have begun, before VT receives a cancellation notice, a charge equal to the costs incurred, less net salvage, applies.

The charges described above will be calculated and applied on a case-by-case basis.

If a Customer cancels a service order or terminates services before the completion of the term for any reason whatsoever, the Customer agrees to pay VT the following:

- A all nonrecurring charges reasonably expended by VT to establish service to the Customer.
- B any disconnection, early cancellation, or termination charges reasonably incurred and paid to third parties by VT.

The above sums shall become due as of the effective date of the cancellation or termination and be payable within the period, as set forth in this tariff.

2.17.2 Discontinuance of Service

VT may discontinue or refuse to furnish any and/or all service(s) to the Customer or applicant for service without incurring any liability if VT deems that such action is necessary to prevent or to protect against fraud or to otherwise protect its personnel, agents, facilities, equipment, assets or service.

The discontinuance of service(s) by VT pursuant to this Section does not relieve the Customer of any obligation to pay VT for charges due for service(s) rendered up to the time of discontinuance. In addition, VT may declare all future monthly and other charges which would have been payable by the Customer during the remainder of the term for which such services would have otherwise been provided to the Customer, to be immediately due and payable.

In the event VT incurs fees or expenses including attorneys' fees in collecting or attempting to collect any charges owed VT, the Customer will be liable to VT for the payment of all such fees and expenses reasonably incurred.

2.0 RULES AND REGULATIONS (Continued)

2.17 Cancellation, Discontinuance and Changes (Continued)

VT may, without incurring any liability, discontinue or suspend service within seven (7) days written notice, or refuse service if (a) the Customer refuses to furnish information to VT regarding the Customer's credit-worthiness, his/her past or current use of communications services or his/her planned use of service(s); (b) any material portion of the facilities used by VT to provide service to the Customer is condemned or a casualty renders all or any material portion of such equipment or facilities inoperable beyond feasible repair; (c) any governmental order or directive calls for the discontinuation of service, the Customer alters the services to be provided, or the Customer violates an applicable federal, state or local law or regulation or (d) the Customer uses service without payment for the service or the Customer fails to pay any amounts owing to VT for services to which the Customer subscribes or had subscribed or used.

2.17 Cancellation, Discontinuance and Changes (Continued)

2.17.4 Restoration of Service

When a Customer's service has been disconnected in accordance with this tariff, service will be re-established only upon the basis of an application for new service.

If a service has been suspended, discontinued or disconnected for nonpayment, service will be re-established upon receipt of all charges due, which includes charges for services and facilities during the period of suspension and which may include a service restoration fee. 2.0 RULES AND REGULATIONS (Continued)

2.19 Allowances for Interruptions in Service

When the use of service or facilities furnished by VT is interrupted due to any cause other than the negligence or willful act of the Customer, or the operation or failure of the facilities or equipment provided by the Customer, a pro rata adjustment of the monthly charges subject to interruption will be allowed for the service and facilities rendered useless and inoperative by reason of the interruption whenever said interruption continues for a period of twenty-four (24) hours or more from the time the interruption is reported to or known to exist by VT, except as otherwise specified in VT's tariff.

It shall be the obligation of the Customer to notify VT immediately of any interruption in service for which a credit allowance is desired by Customer. Before giving such notice, the Customer shall ascertain that the trouble is not being caused by any action or omission of the Customer within his or her control, or is not in wiring or equipment, if any, furnished by Customer and connected to VT's terminal. If the Customer reports a service, facility or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.

2.17.1 Credit Allowances

Credit for failure of service or equipment will be allowed only when failure is caused by or occurs in, facilities or equipment owned, provided and billed for by VT.

Credit allowances for failure of service or equipment starts when Customer notifies VT of the failure or when VT becomes aware of the failure and ceases when the operation has been restored and an attempt has been made to notify Customer.

For calculating credit allowances, every month is considered to have thirty (30) days. A credit allowance is applied on a pro rata basis against the monthly charges specified hereunder and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit. Credit allowances for service outages that exceed 24 hours in duration will be rounded up to the next whole twenty-four (24) hours.

2.19 Allowances for Interruptions in Service (Continued)

2.19.2 Limitations on Allowances

No credit will be made for interruptions due to the negligence of, or noncompliance with the provisions of this tariff by, the Customer or for interruptions due to the negligence of any person using VT's facilities with the Customer's permission. No credit will be given by VT for interruptions due to the failure or malfunction of non-VT equipment or interruptions of service during any period in which VT is not given full and free access to its facilities and equipment for the purpose of investigating and correcting interruptions. No credit will be given to the Customer for interruptions of service during a period in which the Customer continues to use the service on an impaired basis, interruptions of service during any period when the Customer has released service to VT for maintenance purposes or for implementation of a Customer order for a change in service arrangements, or interruption of service due to circumstances or causes beyond the control of VT.

2.0 RULES AND REGULATIONS (Continued)

2.21 Violation of Regulations

When any terminal equipment or communications system is used with Local Exchange Services in violation of any of the provisions of this tariff, VT will take any necessary immediate action to protect its services or interests, including disconnection of the service, and will promptly notify the Customer of the violation in writing. Within seven (7) days upon receipt of said notification, the Customer shall discontinue such improper use of the terminal equipment or communications system or correct the violation and shall confirm in writing to VT that such use has ceased or that the violation has been corrected. Failure of the Customer to discontinue such use or to correct the violation and to give the required written confirmation to VT within the time stated above shall result in disconnection of the Customer's service until such time as the Customer complies with the provisions of this tariff.

2.21.1 Intentional Abuse of Service

VT has the right to refuse telephone service to any premises and at any time to discontinue telephone service, if it finds it necessary to do so to protect itself against intentional abuse. Intentional abuse of service includes, without limiting the generality of the foregoing, the use of service or facilities of the Company to transmit a message or to locate a person or otherwise to give or obtain information, without payment of a message toll charge of an exchange service charge. Another form of such abuse is an intentional uninterrupted connection of one exchange station to another station, excluding those connections charged for on an elapsed time basis, which permits the use of the facilities in a manner similar to private line service. It also includes intentional receiver off-hook conditions.

2.22 Taxes

Any assessments, franchise fees, privileges, licenses, occupation, excise, or other similar fees or taxes, whether in a lump sum or at a flat rate, based upon receipts or property units, imposed upon VT by any governmental authority shall be added pro rata, insofar as practical, to the rates and charges stated in VT's rate schedules. 3.5 Directory Listings

Upon the request of a directory listing publication, VT will provide list of names and telephone numbers of Customers and joint-users for the purpose of informing calling parties of the telephone numbers of Customers and those entitled to use Customer's service. The Company limits the length of any listing by the use of abbreviations when, in the opinion of the directory publishing company, the clearness of the listing or the identification of the Customer or joint-user is not impaired thereby. Listings must conform to the practices of the directory publishing company with respect to its directories.

VarTec will furnish upon request the name and address of the Customer to exchange service when such service is used to provide recorded announcements under the provisions of this tariff. Listings are regularly provided in connection with all classes of exchange service, unless the Customer subscribes to non-published exchange service or non-listed service. The contract period for Directory Listings where the listing actually appears in the directory is the effective period of the directory. Where the listing has not been printed in the directory, the contract period is one month.

One Residential Primary Listing is provided without charge for each separate Customer service or joint-user. The Primary Listing must be the actual name of the Customer to whom the service is rendered or the name of a member of the Customer's family or household.

A residential Customer may request that part or all of the address information which would otherwise be listed in the directory be deleted by the Company. Such deletion will be continued in successive directories without further request by the Customer until the Customer requests publication of part or all of the deleted address information in the directory.

Rates and charges associated with Directory Listings and the optional features described below are set forth in Section 4.5 following.

3.0 SERVICE DESCRIPTIONS (Continued)

3.5 Directory Listings (Continued)

3.5.1 Non-Published Service

Customers who desire their telephone numbers to be omitted from directory publications may subscribe to Non-Published Service. Incoming calls to a Customer subscribing to Non-Published Service will be completed only when the calling party places the call by telephone number, notwithstanding any claim made by the calling party. When a call is placed from a telephone number associated with a Non-Published listing, the number may be disclosed if the called party has equipment to display Caller ID. Customers may prevent the display of their telephone number by subscribing to and activating Calling Number Blocking.

3.5.2 Non-Listed Service

At the Customer's request, any one or all of the Customer's primary listings, additional listings or other listings associated with the same or different residence telephone service line normally published in the directory will be omitted from the directory but will be listed in the directory assistance records available to the general public. The Customer indemnifies and holds the Company harmless against any and all claims for damages caused or claimed to have been caused directly or indirectly by the publication of the listing, which the Customer has requested be omitted from the directory or the disclosing of such a listing to any person. Where such a listing is published in the telephone directory, the Company's liability shall be limited to a refund of any monthly charges assessed by the Company for the particular Non-Listed Service.

When a call is placed from a non-listed telephone number, the number may be disclosed if the called party has equipment to display Caller ID. Customers may prevent the display of their telephone number by subscribing to and activating Calling Number Blocking.

3.5.3 Residential Additional Listings

Residential Additional Listings may be the names of members of the Customer's family or of other persons residing in the Customer's household. A Dual Name Additional Listing may be provided for two persons who share the same surname and reside at the same address, or for a person known by two names. This listing is composed of a surname, two first names, address and telephone number.

Residential Additional Listings may be nicknames, abbreviated names, names which are commonly spelled in more than one way, and rearrangements of names when, in the opinion of the directory publishing company, they are necessary for the proper identification of the Customer.

VT furnishes local assistance through an operator whereby Customers may request the services described herein. The rates set forth in Section 4.6 apply to local operator assistance requests originating for all classes and grades of services.

3.6.1 Line Status Verification

Line Status Verification allows an operator to determine the condition of an access line that a Customer requests to be checked. This service is provided where facilities exist through a VT provided operator. Line Status Verification requests will not be processed on a collect (reversal of charge) or person-to-person basis.

This service is provided where facilities exist through a VT provided operator. Busy Interrupt requests will not be processed on a collect (reversal of charge) or person-to-person basis, except in the case of an emergency situation, when the caller may bill collect if necessary.

The charge for Busy Interrupt applies whenever the operator interrupts the conversation even if the interrupted parties refuse to terminate the conversation in progress.

3.6.3 RingBack

RingBack enables the Customer to redial automatically the last outgoing telephone number that received a busy condition. When a Customer receives a busy condition, an announcement will offer to activate RingBack and complete the call when the line becomes available. The service will make call attempts to the telephone number for a maximum of thirty (30) minutes beginning with the Customer's activation of RingBack, in an effort to establish the call. The Customer will be signaled with a distinctive ring when the call can be completed.

RingBack is available where central office facilities exist and is only available on a per use basis. Customers are not required to subscribe to this service in order to utilize RingBack. Charges associated with RingBack will apply, whether the call was completed or not.
